

GOD IS ROLLING WITH YOU

I. Jack

Take a look at my life
I'm a take-charge guy
Something needs fixing
I'm gone give it a try
I'm addicted to needing something to do
But if you can't let up
And you can't let go
It's hard to know
What you seem to know
When you're open to him rolling with you.

And he is, God is rolling with you
And he is, God is rolling with you
And he is, rolling with you
All you got to do is just let him on through
Yea God is rolling with you.

Take a look at my heart
It's an open book
With a few crash landings
From the flights I took
And I always did do, what I wanted too
But if you never do learn
From your own two hands
That a good co-pilot
Is a damn good plan
Then you won't break through
To him rolling with you

And he is, God is rolling with you
And he is, God is rolling with you
And he is, rolling with you
All you got to do is just let him on through
Yea God is rolling with you.
There's a free wind on breeze
Yea, You can do just as you please
There's a love with in your reach
It keeps rollin and rolling
Rolling and rolling
Rolling and rolling
Yea God is rolling with you
