

If I See God In You

I.Jack

Please, don't keep on asking if I've been saved.
You want to reach me practice the gifts he gave.
Bring some grace to the situation.
Send me out a little good vibration.
'Cause I don't get it when you hit me on the head,
That's what I said.

But if I see God in you
And he's shining in the things you say and do
That just might lift me up to a state of grace
Make this world a better place
If I see God in you.

Please, don't keep on asking if I've been healed
Ain't no word from you is ever gonna seal that deal.
Jesus loves me this I know, yes he does.
For the bible tells me so, but don't you know

If I see God in you
And he's shining down In the things you say and do
That just might lift me up to a higher space
Make this world a better place
If I see God in you.

Now wait a minute
If you
If you see God in me
You're surely gonna want to keep me company
And that might bring some grace to this situation
And elevate this tired nation
If I see God in you
And you see God in me.
